

Minutes of Land Committee
February 13, 2012

The Land Committee met on Monday February 13. Attending were Earl Foster, Jerry Hietpas, and Bob Knaus, so there was no quorum.

We discussed the letter to be sent to four appraisers soliciting proposals to value the property at Lohmans Crossing that was previously under contract (the 18 acres). Bob had sent a draft to Earl who added the other appraisers and will send it out on District letterhead. Bob also confirmed with Karl Ansbach that a new appraisal is needed.

It was also noted that the public notice for the sale of the surplus property at 132 Hurst Creek will appear in the February 16 Lake Travis View and again in its next issue on February 23.

Earl also related his recent discussions with the City on a hazardous waste transfer facility on CT-2 property adjacent to Stewart Road. No action was taken and the discussions were to continue this week with the City.
